Type of Incident: Traffic Accident / Car vs Garage

On 09/15/2013 at 11:51PM Kent Deputies responded to the area of 6690 Northland Dr NE on a report that a car crashed into a garage. Investigation revealed that an 18 year old Rockford man unintentionally backed his Oldsmobile Alero into a series of connected condominium garage units. Alcohol was not a factor and no one was injured.

Multiple garage units were involved and the impact appeared to have compromised the structural integrity of the garage units. Due to the extent of the damage the vehicle could not be removed safely. The condominium association is taking steps with their insurance company to remove the vehicle safely.
